Dr. Jackman - I have used the forms sent me but somehow the number of children or adults in attendance at my meetings does not seem to me to give the true picture of my work so I have also included, in the small corners, the number of meetings. In the total I have given the total number of meetings also the number of participants which in the demonstrations includes the children as well as the teachers. Under "travel" expense I have also given a figure on "other expenses" since these are also a part of my particular expense account.
